Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Friday 10 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Becoming brighter through the day with some afternoon showers.

Today:
A cloudy start for all, accompanied by some showery rain. The cloud should slowly break by the afternoon giving some brighter spells, however further scattered, possibly heavy and thundery showers developing too. Maximum temperature 21 deg C (70 deg F).

Tonight:
Showers easing to leave a mainly dry but rather cloudy night. There is the potential for some low cloud and light rain over hills and along the coast. Feeling mild. Minimum temperature 14 deg C (57 deg F).

Saturday:
After a cloudy start, Saturday will become dry and bright for many with plenty of sunny spells. Some isolated showers remain, especially across the south of the region. Maximum temperature 19 deg C (66 deg F).

Outlook for Sunday to Tuesday:
Sunday and Monday will see some sunny spells with isolated afternoon showers. However, by night there will be some outbreaks of more general rain. Cloudier on Tuesday with scattered showers.
